GLORY OF STORIES

Did you ever meet Rainbow Bear or the animals from the Alphabet Zoo? Have you come across Captain Who?! Surely you've heard of Dr Maximilian, inventor of the time machine! What about the mystery writers of Brook Street?

Meet these colourful characters at Julia Gabriel Centre holiday programme this December!

Infants and their caregivers will help Rainbow Bear celebrate his birthday, kindergarteners can train as pirates and sail the seven seas with Captain Who?!, while primary students get to unravel the mysteries of time or the mysteries of the written word!

Drama, role play, improvisation, performance, storytelling, music and songs, art and craft, journalling, creative writing and presentation - these are just some of the

amazing activities in store for those who join in the adventures!

Every programme has been designed by Julia Gabriel Centre's specialist educators to spark curiosity for learning, excite the imagination, hone creativity and build strong, confident and expressive communication skills.

Suitable for children 6 months to 12 years old.

When: 27 Nov - 8 Dec 2017

Where: Julia Gabriel Centre @ Orchard, 583 Orchard Road, #04-00 Forum, Singapore 238884 Julia Gabriel @ Tampines, 4 Tampines Central 5, #05-03 Tampines Mall Singapore 529510

Tel: 6733 4322 (Forum, Orchard) 6444 6735 (Tampines)

MANDARIN WONDER

The fascinating world of the ocean deep, of rivers, forest animals and the Kingdom of Han Yu Pin Yin - there are just some of the exciting themes that awaits children at **Chengzhu!**

One of the best ways to build your child's excitement to communicate in Mandarin is to immerse them within a fully Chinese environment where every activity is meaningful, relevant and fun.

Whether a baby in PlayNest discovering **The Mysterious Ocean** for the

first time, a preschooler finding their creativity with ink brush painting in **Chinese Cultural Arts** or a primary student exploring vocabulary and how to craft simple stories through **The Age of the Dinosaurs**, every developmentally appropriate interactive activity is designed to engage, stimulate and inspire.

And with the most talented, lively and warm educators on hand to facilitate learning, mastering Mandarin becomes even more fun!

Sign up today and look forward to drama, puppetry, performance, music, word games, traditional stories and poems, art and craft, Kung Fu and much more!

Suitable for children 6 months to 9 years old.

When: 27 Nov - 1 Dec 2017

Where: Chengzhu, 35 Rochester Drive, #03-01 Rochester Mall Singapore 138639

Tel: 6737 5348

For more info or to register, visit www.chengzhu.edu.sg.

DARING KIDS TO DREAM

How can we nurture our children to be happy and prepare them for success in this fast-changing world?

Dreamkids is not your conventional preschool.

It employs a fusion of the world's best early childhood educational approaches. The school's Education and Curriculum Specialist comes from Finland - recognised as one of the world's leading education systems - and blends knowledge of Finland's well-balanced system with

the successful traits Singapore.

Adopting a thematic approach in their school, Dreamkids Kindergarten partnered with Rovio Entertainment Ltd, to bring in an early childhood education program for three to six-year-olds based on the 'Fun Learning' methods and values. The programme, Angry Birds Playground, supports engagement, creativity and innovative thinking.

Backed by a value-based education with strong emphasis on a culture of dreams and gratitude, Dreamkids

is a place where everyone - children, teachers and parents - think, speak and use the common language of Dreams and Gratitude.

Because values are not taught, but are influenced through daily little consistent action.

Where: 46 East Coast Road #01-03 Singapore 428766

ABOUT US

Learning comes alive at dreamkids preschool. Our curriculum brings context and real life experiences in a fun, engaging and stimulating manner to help our children make sense of the world around them.

Our curriculum is based on the fun learning approach concept, a world class education from finland where a safe and inspiring learning space is fostered to promote creativity and critical communication skills. We focus and emphasize on bilingualism, values and 21st century skills that will stand your child in good stead for the future.

All The Write Stuff

This year-end holiday, sign up for a holiday programme to get your child ready for the upcoming school year! Check out the fantastic range of English holiday programmes offered at British Council.

READING BOOSTER

This programme helps to reinforce literacy skills, for children who need extra support before beginning Primary 1.

Age: 6 (K2)

Duration: 5 days

Fees: \$610

GET READY FOR PRIMARY

An introduction to the activities and routines that students meet in Primary 1 classes. Tasks range from simple comprehension and writing tasks to organising class work and cooperating together in groups.

Age: 6 (K2)

Duration: 5 days

Fees: \$815

LEARN AND EXPLORE - COMPOSITION SKILLS

Students will experiment with writing techniques and gain practice in a range of composition types from

the MOE syllabus. The course aims to sharpen your child's writing skills for better compositions.

Age: 7 - 12 (P1 - 6)

Duration: 5 days

Fees: \$725

LEARN AND EXPLORE - COMPREHENSION SKILLS

Students will gain exposure to a range of passages with increasing difficulty. They will learn to recognise and answer question types that typically appear in exams.

Age: 7 - 12 (P1 - 6)

Duration: 5 days

Fees: \$725

SPEAKING WITH CONFIDENCE

Students will learn to express their ideas clearly and coherently by exploring themes and presenting them in imaginative ways.

Age: 10 - 11 (P4 - 5)

Duration: 5 days

Fees: \$725

SUMMARY SKILLS

Students will develop a range of strategies to synthesise texts and write effective 'O' Level summaries.

Age: 13 - 16 (S1 - 4)

Duration: 2 days

Fees: \$290

ESSAY WRITING

Students will understand and practise different sub-skills of writing. They will also learn techniques to improve their writing performance.

Age: 13 - 16 (S1 - 4)

Duration: 2 days

Fees: \$290

CRITICAL THINKING

Students will improve their ability to think deeply and logically to solve problems and understand concepts, as well as question critically what they read and hear.

Age: 13 - 16 (S1 - 4)

Duration: 1 day

Fees: \$145

DEBATING AND PUBLIC SPEAKING

This programme challenges students to extend their speaking and writing skills to become more confident speakers and writers. The conclusion of the course will be a group debate competition.

Age: 13 - 16 (S1 - 4)

Duration: 5 days

Fees: \$725

DISCOVER THIS!

Boost your child's talents this school break with fun and educational camps!

Discovery Camps is partnering with international educational experts such as Lorna Whiston Schools (Singapore), Collegewise (U.S.A) and BSD code + design academy (Hong Kong). From Drama to Robotics, here are 5 exciting programmes to check out.

1. English Explorers by Lorna Whiston Schools

For children age 3 to 8

English Explorers focuses on nurturing and developing children's speaking, listening, reading and writing skills to ensure they stay ahead during school holidays.

2. Actor's Studio by Lorna Whiston Schools

For children age 6 to 11

Build confidence in public speaking through Drama. Children will think, explore, sense and experience through the dynamic medium of creative drama.

3. LEGO® Robotics

For children age 6 to 11

Let children be immersed in science, engineering and maths with LEGO® Robotics. Watch them bring robots to life as they brainstorm, build and experiment!

4. Code Academy by BSD Code + Design Academy

For children age 7 to 14

Learning to code for games helps children grasp fundamental programming concepts. Children will learn how to work with online applications such as HTML, CSS and JavaScript.

5. College Bootcamp by Collegewise

For children age 14 to 18

Stand out and excel in University applications. In-depth guidance is provided on how to perfect one's CVs, understanding the application process, interview strategies and college research will be taught.

Why parents will love it too

- All-inclusive price of \$575/child (one week) covers everything
- Easy fuss-free online booking
- Conveniently located at United Square, Novena
- Parents are invited to their child's showcase on Fridays

When: 20 Nov - 22 Dec 2017

BOOK NOW!

Science Wise

At Terra Minds, we believe every child is a scientist!

Join our year-end Holiday programmes, filled with exciting hands-on activities to encourage children to learn and enjoy Science and Robotics.

Magical Science

Junior Scientists programmes are specially designed for 4 to 6 years old to ignite interest through play and stories. Embark on an exciting journey to learn about Colours Science and Magical potions.

Unchained Science

How do chain reactions work and why are gears essential for machinery? If your child like to tinker with things, then don't miss the Lego Chain Reactions and Lego Gears workshops.

They will bring home a book with Lego parts and continue their tinkering explorations at home too!

Lego Robotics Courses

Reinforce Science concepts of force, energy and life cycles through the Lego WeDo Robotics workshops. Your child will build models and put in programming for the models to play a game of tug of war, hop like a frog and even speed like a race car.

Dash and Dot Robots

These Award-winning robots are responsive robots packed full of capabilities that allow them to interact with their environment through built-in motors, sensors, LEDs and audio capabilities.

For 5 and 6 year olds, they can Travel

around the World by programming Robot Dash to travel to countries and learn new greetings. For 7 to 12 year olds, they can learn to programme Robot Dash on a grid mat and accomplish as many challenges in Mission Impossible.

Let it Snow

Our Christmas ArtScience workshop combines the creative creation of a snow globe and the learning of the Science of snow and fractals.

TINKER ME THIS

Thinker Tinkers is a powerful STEM programme not just to unleash creativity in children, but to teach children to experience failures in the process of tinkering. In doing so, children learn how to embrace failures and treat each failure as an opportunity to be better in order to reach their goals.

STEM, which stands for Science, Technology, Engineering and Mathematics, adopts a multi-disciplinary approach towards understanding of the world and solving problems, instead of teaching Math and Science in isolation.

Thinker Tinkers believe in hands-on activities that inspire

curiosity and creativity. Children are given opportunities to apply what they learn to solve real-life problems with hands-on and minds-on lessons, marrying Math and Science into something engaging and fun.

Suitable for children 5 and 6 years old.

For more info about their holiday programme, call 91098285 or email info@thinkertinkers.com, or visit www.thinkertinkers.com.

Halloween

THEME

TRICK
OR
TREAT

STEM HOLIDAY PROGRAMME

Boo! Boo! Boo! Does your child love Halloween? All the "trick or treat" and dressing up makes Halloween so much fun... and Halloween is never complete without a skeleton! During the programme, your child can dress up in his or her favourite Halloween character and have lots of fun learning the five functions of the skeleton.

Along the way, they will make "blood" and "brains", and create models to better understand the different roles of the skeleton.
